PROFILE

I'm Joshua Rose "VeinPG",I am 18 years old and I've been in smaller Fortnite Teams since 2019 and played for them as a player until I found out in 2021 that I want to make a difference in Teams and organize things myself. And so I decided to work in the management area.

EMPLOYMENT HISTORY

Social Media Management, Team Purgens

Berlin

Feb 2021 — Jan 2022

I officially joined Team Purgens in July 2021, focusing exclusively on social media management. I have been managing the Team Purgens Instagram channel since then, taking care of Story and Video ideas, communication to participating players, video descriptions, tags, answering comments, community posts and communication to video editors. I have perfected working with Google Drive and planning content well in advance to avoid stressful mistakes..

Valorant Management, Team Purgens

Berlin

Jan 2022 — May 2022

Since January 2022 we had the idea to open a Valorant team, and I wanted to do it completely alone because I really enjoy it and I also wanted to develop myself in the field of management.

I have signed players, planned content, planned videos & tournaments with the players.

I have dealt a little with Project V and played some tournaments myself, the understanding of the game is definitely there.

Valorant Management, NT4H

Berlin

May 2022 — May 2022

In May, I decided to manage another team in order to further develop myself there as well.

My main task was to keep a 5 stack active, find coaches and encourage them to play tournaments.
