Damascus - Syria

Remotely

Flutter Developer freelancer

01/2021 - Present

UAE

TECHNICAL SKILLS

Object Oriented Programming (OOP)

Problem Solving

SOLID principles

Flutter Experience

Flutter Developer

Methodologies: Agile – Scrum

Structure pattern : MVVM, MVP and MVC

PERSONAL PROJECTS

Messages App (11/2021 - 12/2021)

- Message display application developed using kotlin and re-developed using flutter, its features are copying, adding to favorites and sharing , using technologies (sqlite, getx) It got 2 million downloads

News App (01/2021 - 02/2021)

- This is a news application. I made it to learn the all basics of the REST APIS (using http package), Shared Preference and State Management (getx). This app connects to the APIS to show the user all news based on the category like (Sports-Business-Science). Also it has the dark mode option.

E-commerce (03/2021 - 04/2021)

- This is a full e-commerce application. I made by using Firebase, Shared Preference and State Management (getx). This app connects to the FirebaseFirestore to show you the all products in the store based on the category like (Baby-Electronics-Men's Fashion). Also you add your product to your favorites list to buy later or cart to make an order.

Note App (03/2021 - 03/2021)

- This is a notes app. I made it to learn the all basics of the SQL-lite database and State Management (getx).It is very simple and easy to use. The main idea of the application is to store the user notes as tasks to help him managing his time. Also he sets a deadline to end this task and the application shows him if the task had done or not

House Rent (04/2021 - 04/2021)

- This application is a rental property app that will allow users to rent out properties like that of AirBnB and Homeaway. The purpose of this app is to help develop my flutter development skills

Travel App (10/2021 - 10/2021)

- Travel App UI Template made in Flutter for both Android & iOS.

Chat app (01/2022 - 01/2022)

- A chat app made by Flutter and Firebase. Support login with google account, chat with any user, send text, image, update avatar and profile
