Profile

I am a dedicated UX/UI Designer with a strong background in creating user-centered designs that blend aesthetic appeal with functionality. My expertise lies in transforming complex problems into intuitive, visually compelling solutions that enhance user experiences and drive engagement.

With a robust foundation in user research, wireframing, prototyping, and usability testing, I approach each project with a deep understanding of user needs and behaviors. My design process is rooted in data-driven insights and user feedback, ensuring that every design decision is informed and impactful.

Professional Experience

2023 – present

IT Support Officer/ Web Design Trainer

UniAbuja, Communication & Media studies Faculty

- Provides technical support for office computers and peripheral devices, ensuring efficient operation and minimal downtime.
- Assist with troubleshooting and resolving hardware and software issues, including system errors, network connectivity problems, and application malfunctions.
- Organize a 2 day workshop to train students on how to design websites using Wordpress CMS.

2021 – present

UX/UI Designer (Freelance)

Fiverr.com/ Upwork.com

- Interacting with clients to discuss ideas, business needs, and requirements, ensuring that design solutions align with their vision and objectives.
- Conceptualizing and developing innovative ideas, including wireframe sketches and user flows, to visualize and refine design concepts effectively.
- Designing intuitive and user-friendly UI for mobile apps and responsive websites, serving clients across diverse industries such as Fintech, Education, and E-commerce.

2023 – present

Web and Digital Content Designer

Birxola Firms

- Create and design marketing and campaign content for social media platforms, driving brand visibility and audience engagement.
- Develop and design the firm's official business landing page, optimizing it to attract and convert prospective clients effectively.

2023/04 – 2023/09

UX/UI Designer

BrainPal Code Academy

- Collaborated with instructional teams to design and deliver user-centered design training sessions, equipping students with practical skills in UX/UI principles and methodologies.
- Conducted UX research and user testing to gather insights and validate design decisions, applying findings to create wireframes, prototypes, and user flows within a defined contract period.

2021 – 2022

UX/UI Design

Codesquad LLC

- Collaborating with the product team to develop user-centered designs by deeply understanding business requirements and incorporating user feedback.
- Revamping the company's official website, enhancing its visual appeal and usability to attract and engage prospective business clients.
- Leading UX research, wireframing, and user flow development for the TopupBox mobile app, a peer-to-peer transaction and bill payment platform, ensuring a seamless and intuitive user experience.
