SUMMARY

Full Stack Software Engineer with 2+ years of experience in developing scalable web applications and cloud-based solutions. Proficient in JavaScript, TypeScript, React.js, Express.js and AWS. Skilled in problem-solving, meeting critical deadlines, and excelling in agile, collaborative environments. Passionate about enhancing user experiences and driving innovation through effective software solutions.

SKILLS

Languages: JavaScript, TypeScript, Go, Python, SQL, GraphQL

Front-End: React.js, Next.js, HTML, CSS, Angular, Tailwind CSS

Back-End: Node.js, Express.js

Databases: MongoDB, PostgreSQL, MySQL

Cloud and DevOps: Git, GitHub, Ansible, AWS, Docker, Kubernetes, Jenkins, Terraform

WORK EXPERIENCE

Full Stack Engineer April 2024 - Present
Turina Technologie Inc.

- Developing React.js applications with high code efficiency and best practices, also contributing to deployment using Docker and CI/CD.
- Collaborating with design teams to maintain intuitive, responsive user interfaces, focusing on front-end technologies and accessibility.

DevOps Engineer May 2023 - Dec 2023
CGI, Toronto, ON

- Led Spring Boot development with Docker and Kubernetes; Revamped SonarQube code to boost code quality and security.
- Optimized Jenkins pipelines in Bash and Groovy, cutting deployment wait times by 30% and enhancing code performance.
- Managed and configured private server, including reverse proxy setups, ensuring optimal performance and security of applications.

Full Stack Developer Aug 2021 - May 2022
DevIncept

- Modernized a React.js application, drastically improving code quality and reducing load time by 60%, while refactoring code to enhance application performance by 30%.
- Boosted user engagement by 40% through UI/UX collaboration, applying design principles to ensure an exceptional experience.

Full Stack Developer Intern Apr 2021 - Jul 2021
Webknot Technologies Private Limited

- Revitalized and optimized web applications to improve responsiveness and address RESTful API integration challenges.
- Developed Cloud Firestore backend and streamlined GitHub workflow, contributing to project efficiency and quality code reviews.

EDUCATION

Master of Applied Computing May 2022 - Dec 2023
University of Windsor

- Served as President of ASRG student chapter and Web Developer for the READSci club.

Bachelor Of Computer Science Engineering Aug 2017 - Aug 2021
Visvesvaraya Technological University

- AWS Educate Student Ambassador, Organized MLH Local Hackday with (110+ participants), Technical Team Member of Google DSC.

PROJECTS

Lancers View ([URL](#)) | React.js, TypeScript, Express.js, MongoDB, Next.js, Tailwind CSS Jan 2023
Led a full-stack development team to create a job interview review platform, showcasing intuitive UI and robust backend functionality.

Unused to Reuse ([URL](#)) | React.js, TypeScript, Express.js, MongoDB, Next.js, Firebase Storage, GitHub Actions Dec 2022
Created a platform for community item donations, highlighting full-stack expertise and commitment to social impact projects.

AWARDS

Winner, CIS Dragon's Den AI competition, CGI Dec 2023

Winner, Sustain Hacks, Major League Hacking (MLH) Dec 2022
