📇 PROFİLE

I am a Java developer with high enthusiasm and patience to get new skills and make my knowledge deeper. I have some small projects developed by my own and collaborating with teammates.

🧠 BACKEND DEVELOPMENT SKİLLS

Java
Java core, Java SE,Java 8+,Java web,JDBC

Spring framework
Spring Boot,Spring MVC,Spring Data,Spring Security,Spring Reactive

Database
MongoDb,PostgreSQL,MySQL (all at backend developer level)

Extra
Unit testing with Spock,jUnit5,API documentation with Swagger,Docker, migration with Liquibase

Microservice architecture
Microservice DB management, synchronous communication with RestTemplate , OpenFeign and asychronous microservice communication with Rabbit MQ

🧠 FRONTEND DEVELOPMENT SKILLS

Basic frontend skills
HTML5,CSS3,Bootstrap,responsive web design etc.

🛠 EXTRA SKILLS

Git version control system
Github,Gitlab,Bitbucket

Operating System
Windows ,Linux(Ubuntu)

🧩 TEAM/TASK MANAGEMENT SKILLS

Agile Methodology
I have an experience with Scrum and Kanban technics as well as Atlassian products like Jira,Confluence etc.

🎸 SOFT SKİLLS

- Motivated to search, learn and solve problem
- Adaptive new people, team, organization
- Speaking in public, to groups or via electronic media

❤ Volunteering

Azerbaijan Oil and Industry University,
Backend Developer ⤢
03/2022 – present | Baku, Azerbaijan
I participate backend stuff and creating rest services for CE cafedra
