EDUCATION

Laxmi Institute of Technology

Bachelor in Computer Science : CGPA - 8.87

Sarigam, Gujarat

Aug. 2020 – June 2024

EXPERIENCE

Frontend Developer

Proventech Consulting

August 2025 – Present

Hyderabad, Andhra Pradesh

- Utilized TanStack Query to fetch and manage data from a FastAPI backend.
- Developed responsive and user-friendly interfaces using Mantine UI components.
- Tested and validated backend APIs using Postman to ensure reliability and accuracy.

Frontend Developer

Dreamer Technologies

January 2024 – December 2024

Vapi, Gujarat

- Built a fully functional CRM dashboard in Next.js, improving customer management efficiency by 30%.
- Used React Hook Form and Zod to validate and manage form inputs effectively.
- Integrated APIs to fetch and display input data efficiently, optimizing data management for a smoother user experience.

Frontend Intern

Enjay IT Solutions

July 2023 – August 2023

Bhilad, Gujarat

- Contributed to building the Enjay IT Solutions website using React and TypeScript for a scalable and maintainable codebase.
- Improved page load speed and performance by optimizing React components.
- Assisted in converting the design methodology from desktop-first to mobile-first

Frontend Intern

Burly Care

May 2023 – June 2023

Noida, Uttar Pradesh

- Converted Figma design into a functional website interface using React, ensuring precise alignment with design specifications.
- Integrated the Formik library for efficient and scalable form management.
- Developed a dashboard page and a user profile page to enhance user interaction and navigation.

PROJECTS

Chapterly | Next.js, Typescript, Shadcn/UI, Tailwind CSS, Lodash

- An online library app to search, view, and manage books.
- Used Google Books API to fetch and display book results based on user search.
- Implemented debounced search using Lodash to minimize API calls and improve performance.

Taskify | Next.js, Typescript, Shadcn/UI, Tailwind CSS, React Hook Form

- A minimalist and responsive task management app built for daily planning.
- Added a toggle to switch between all, completed, and active tasks
- Used Formik to handle and validate form input when adding or editing tasks.

Notely | Next.js, Typescript, Shadcn/UI, Tailwind CSS, React Hook Form

- A minimalist note-taking app designed for quick and organized writing.
- Designed a clean layout to display notes effectively across all screen sizes.
- Added drag-and-drop reordering for better organization.
