EDUCATION:

10th Boards
Julien Day School

05/2016 - 05/2017   *82% in ICSE*

Courses
- General

12th Boards
Julien Day School

05/2018 - 05/2019   *79% in ISC*

Courses
- Science

B-Tech in Electronics and Communication Engineering
Narula Institute of Technology

06/2019 - 06/2023   *82.6% or 9.0 CGPA*

WORK EXPERIENCE:

Senior Analyst
EY (Ernst & Young)

07/2023 - Present   *Kolkata*

Tasks
- Currently employed as a Full Stack Java Developer, where I play a vital role in contributing to a range of critical client projects on a daily basis. With an extensive background in web application development, I excel in designing, developing, and implementing robust and scalable web applications using Java and related technologies.

Technology Consultant, Intern
EY (Ernst & Young)

02/2023 - 07/2023   *Kolkata*

Tasks
- Interned with EY in ITT-GPS domain(which deals with government and public sector) as a Full Stack Java Developer with a strong focus on Spring Boot web framework. Also contributed to the creation of efficient and performant applications that meet client and business requirements.

Cloud Computing(Azure), Intern
ESL Technologies

06/2021 - 07/2021

Task
- Developed a project based on processing Covid-19 Data-Set in Azure Cloud and displayed it in a dashboard in Power BI.

SKILLS:

Java   Spring Boot   Microservices   React JS

HTML5   CSS3   Tailwind CSS   Bootstrap

SQL Server   Mongo DB   Power Bi

PROJECTS:

1. **Personal Portfolio.**
- https://aritra-basak.github.io/Main/Portfolio/index.html
- As a skilled developer, I have designed and developed a personal portfolio website using HTML5, CSS3, and JavaScript. I leveraged my expertise in front-end development to create an engaging and responsive user interface that effectively showcases my skills and experience.

2. **User Contact Service**
- https://github.com/Aritra-Basak/MicroserviceProject1-UserContactService
- The User Contact Service is a Spring Boot microservice project designed to provide a robust and scalable solution for managing and organizing user contacts. Leveraging the power of Spring Cloud for enhanced cloud-native capabilities and MongoDB for efficient data storage, this project ensures seamless and efficient contact management for users.

3. **Doctor Appointment Booking Site.**
- As a developer, I successfully designed and implemented a doctor appointment booking site using the Spring MVC framework. I worked on various aspects of the project, including front-end development using HTML, CSS, and JavaScript, as well as back-end development using Java and Spring MVC..

4. **API Rate Limit**
- https://github.com/Aritra-Basak/Spring_Boot_Projects/tree/main/API_Rate_Limit
- Developed an API Rate Limiting Code in Spring Boot Application that can limit the request sent to the particular APIs as per the time requested by each individual client.

5. **Weather App**
- https://github.com/Aritra-Basak/Weather-App
- The Weather App is a user-friendly web application built using React JS that allows users to check real weather information for different locations. The app provides accurate and up-to-date weather data for users to plan their activities accordingly and stay informed about the current weather conditions.
