Disk Usage Analyzer
present
The Disk Usage Analyzer is a command-line tool built using Rust that helps users visualize and manage their disk space usage.

PROFESSIONAL EXPERIENCE

HASTRO, Front-End Developer (Intern)
Lagos, Nigeria

Brimax Games Studios, Game Designer
Lagos

SKILLS

Programming Languages
- Rust,
- V,
- Cpp,
- Python,
- JavaScript

Development Tools
- NeoVim,
- VS Code,
- Version Control

System Skills
- Command Line Proficiency,
- Environment Management

Problem-Solving Skills
- Analytical Thinking,
- Debugging

Soft Skills
- Communication,
- Collaboration,
- Continuous Learning,
- Time Management

Specific Interest
- Japanese Language,
- Building Tools in Rust

Practical Experience
- Building a Disk Usage Analyzer in Rust (ongoing),
- Open-Source Contribution

COURSES

CIT108 - Introduction to Problem Solving Algorithms, National Open University of Nigeria
January 2024 – present | Nationwide, Nigeria

CIT191 - Introductory Programming Practical, National Open University of Nigeria
May 2023 – January 2024 | Nationwide, Nigeria

EDUCATION

Bachelor Of Science in Computer Science, National Open University of Nigeria 🔗
May 2023 – present | Nationwide, Nigeria
