🖱 Personal Website

Hi. I graduated in Economics and I'm a self-taught mobile developer. I started with Frontend and React. Then I met with React Native. I recognized I have a passion for mobile app development. I developed many React native apps check out my GitHub account. I'm highly motivated to learn new things and build new apps. I would love to join a team of talented developers and help build world-class mobile apps.

🔧 Skills

Industry Knowledge

React Native, Redux, Firebase, HTML, CSS, JavaScript, React

Tools and Tech Skills

Visual Studio Code , Expo , Git , Prettier , ESLint

📁 Projects

CryptOS, *The final project for bootcamp* [↗](#)

- All prices in one screen
- Bookmark your favorite coins
- Real-time coin prices and coin charts
- Stay up to date on the latest crypto news

CodeTalks [↗](#)

I build a chat app. Users can join a chat room and start chatting with other users. Also, they can create chat rooms. I used Firebase for the backend

Marvel App [↗](#)

I built a Marvel app that allows users to view all characters and stories. I tried to use all data from the API and display it for the users.

Expense Tracker App [↗](#)

You can follow your expenses with this app. I used ContextAPI and Firebase for the backend.

Tarifka [↗](#)

I built a recipe app that retrieves data from an API. If you want to cook with meat, you can choose the 'meat' category and view a list of meals that include meat. There is also a YouTube link provided on the recipes page.
