Summary

Seeking an entry-level role as a Backend & Android Developer to apply my expertise in Java, Spring Boot, and Android Development. Skilled in designing efficient REST APIs, scalable database schemas, and feature-rich mobile applications. Passionate about building secure backend systems and delivering seamless Android experiences using Firebase and Jetpack Compose. Eager to contribute to a dynamic team while enhancing my skills.

Skills

Programming Languages

- Java
- Python
- SQL

Frameworks

- Spring
- Jetpack Compose
- Flask

Tools

- Android Studio
- Postman
- Git
- GitHub

Databases

- MySQL
- MongoDB
- Firebase Real Time Database

Soft Skills

- Problem Solving
- Team Work

Experience

Mountreach Solutions Pvt Ltd. (Sept 2022 – Dec 2022) 09/2022 – 12/2022

Android Developer Intern

- Developed **DabbaWala: Mess Management System** mobile application using Android Studio.
- Integrated **MySQL database** and worked with real time database (Firebase RTDB) and real time notifications

Education

Bachelor of Engineering (Computer Engineering)

Datta Meghe Collage of Engineering

2023 – present
Navi Mumbai

Diploma in Computer Engineering

Govt. Polytechnic Murtizapur

2023
Akola

Aggregate: 86.00%

SSC Education

Dr. Ulhas Patil English Medium School, Bhusawal

2020
Bhusawal

Aggregate: 91.04%

Projects

Eventify

2025 – present

Event Management android app

- **Description:** Developed a mobile application for event management, allowing organizers to host events and users to register based on their preferences. Implemented secure user authentication with RBAC, real-time alerts, and ticket availability updates. Ensured safe payment processing while delivering a smooth and interactive user experience. Optimized the backend for scalability, performance, and efficiency.
- **Technologies Used:** Java, SpringBoot, Kotlin, JetpackCompose, MySQL.

DabbaWala

2022

Mess Management android app

- **Description:** Developed a mobile application for user and mess admin to manage mess operations, including **authentication, menu management, and payments, attendance**. Worked with real time in-app notifications using **firebase rtodb**.
- **Technologies Used:** Java, XML, PHP, MySQL, Firebase.
