📋 Objective

Frontend Developer with 5 years of experience in TypeScript, React.js, and Next.js. Skilled in building high-performance web apps, optimizing performance, and leading frontend efforts in Agile teams. Seeking a challenging role to apply technical expertise and problem-solving abilities.

🧠 Skills

Frontend Technologies

JavaScript(ES6+), TypeScript, HTML, CSS, React.js, Next.js, GraphQL, REST API, Tailwind CSS, Handlebars.js, Storybook.js, Server-actions, Headless UI, Material UI, Shadcn, WCAG, Accessibility (a11y), Shadcn, DOM Manipulation, Cross-Browser Compatibility, Frontend Development

State Management

Context API, React Query, Tanstack Query, serve same purpose as of Redux or Zustand

Testing & Automation

Playwright, Jest, Pact.js, Vitest, Integration Testing, Unit Testing, E2E Testing, Contract Testing

Soft Skills

Agile Methodologies, Cross-functional Collaboration, Mentorship

Tools & Platforms

Git, GitHub, Open-source, AWS Appsync, Postman, JIRA, Chromatic, CI/CD, Netlify, Heroku, Render

Performance optimization

Datadog, RUM, Vercel, Web Vitals, Google lighthouse

Previously proficient but no longer actively using

Java, J2EE, Spring Boot, Node.js, Express.js, Oracle SQL, My SQL

📁 Experience

Frontend Engineer

Altrata [🔗](#)

Jul 2023 – present

B2B SaaS - Altrata provides accurate, data-driven insights on people and relationships—like LinkedIn without the noise of newsfeeds or chat—empowering organizations with strategic intelligence.

Tech Stack: React.js, Next.js, SSR, TypeScript, Tailwind CSS, Headless UI, Storybook, Playwright, Vitest, Jest

- Improved load time via Next.js optimizations & SSR.
- Built a custom component library from scratch.
- Ensured WCAG 2.1 AA accessibility compliance.
- Deployed & improved more than 10 Playwright flow tests.
- Explored Pact for contract testing to enhance reliability.
- Integrated Google Lighthouse in CI for performance/accessibility checks.
- Conducted rigorous code reviews ensuring code quality.
- Performance monitoring via RUM event tracking.

Frontend Developer

Uniqode [🔗](#)

Feb 2023 – Jul 2023 | Bengaluru, India

B2B SaaS - Uniqode enables businesses to engage customers at scale through digital QR solutions, helping enterprises connect offline-to-online seamlessly.

Tech Stack: React.js, Next.js, TypeScript, Material UI, Storybook, SSG

- Integrated Google Tag Manager, boosting analytics visibility by 25%.
- Set up ESLint, Prettier, Git Hooks, and GitHub Workflows to enforce code standards.
- Built a component library with Storybook, reducing UI dev time by 20%.
- Customized internal Bootstrap library to align with design system.
- **Kaizen Storybook** [🔗](#)

Software Developer

Tata Consultancy Services [🔗](#)

Sep 2020 – Jan 2023 | Chennai, India

Client: Genuine Parts Company, USA – Retail - Retail client delivering large-scale enterprise solutions with React.js, TypeScript, Java, Spring Boot, and SQL.

News Feed App
