PROFILE

I am a highly motivated and ambitious software developer who has recently graduated with a software development license. I am excited to utilize my academic knowledge and practical skills in a fast-paced environment and contribute to innovative projects while learning from experienced professionals. My love for technology and problem-solving motivates me to always improve and deliver top-quality work. I am confident that I can quickly become a valuable member of your team.

PROFESSIONAL EXPERIENCE

Khissal Express

UX/UI Designer and Front-End Developer

09/2023 – present | Casablanca

Having proven my dedication and skills during my internship, I transitioned to a full-time role at Khissalexpress.ma. As a key member of the team, I continue to contribute significantly to the management of the website while actively working on a new and improved version.

Khissal Express

UX/UI Design and Front-End Development

03/2023 – 08/2023 | Casablanca

- Collaborated within a dynamic team to design and develop client and administrator dashboards.
- Applied user-centric design principles through collective efforts in user research, wireframing, and prototyping.
- Contributed to the implementation of responsive front-end solutions using HTML, CSS, and JavaScript.
- Played a key role in the creation of an intuitive client dashboard and a feature-rich administrator dashboard.

DMG2S

Quality engineer in software development

01/2023 – 03/2023 | Rabat

- Delivered a visually appealing and user-friendly website meeting all project requirements.
- Demonstrated strong understanding of full-stack web development concepts and technologies.
- Developed problem-solving skills through troubleshooting and debugging website functionalities.
- Enhanced teamwork and communication skills through collaboration with project stakeholders.

The national social security fund (CNSS)

WebSite application maintenance

04/2019 – 05/2019 | Casablanca

- Assisted with the development of new features for the CNSS internal software.
- Worked on bug fixes and improvements to existing functionalities.
